of warring London newspapers. After various manosuvres, parieys and armistices, the Press magnates from Fleet Street felt everything had been satisfactorily arranged. They forgot, however, that the provincial spirit of independence still exists. The Bristol people saw no reason why their city should be treated as somebody else's back garden. They did something about it. They backed their own newspaper. In spite of all the London competition, it was, from the start, an immense success. Mr. Priestley declares this to he of national algorificance and in his latest book he

It is Good that Bristol should have its own paper, a genuine local enterprise, and not merely some mass publication thrown at it like a bone to a dog. It is good that there should be a real independent previncial Press . . for England, even now, is still the country of local government, even now, is still the country of local government, even now, is still the country of local government, over the country of local government, even the country of local government, politics and interests. The Proof of Canada's Progress SOME FACTS

AND FIGURES

AS THE YEAR 1934 passes into history, Canada can look back upon a period t of unimpaired progress so definitely sustained that it has brought us to the pathway that leads to a sound, sensible, and stable prosperity. The advance that we, as a country, have made during the past year has demonstrated gnew the inherent strength and stability of the Dominion. We have seen the faith to which we held so firmly in the darker days abundantly fulfilled—the confidence to which we clung in gloomier years triumphantly vindicated. With clearer skies above us, and with firmer ground beneath our feet, we have advanced with unimpeded progress along the road of national reconstruction and economic recuperation. It is at once a tribute and a testimony to the courage of the Canadian people that, to-day, Canada marches in the vanguard of the nations in their pilgrimage toward prosperity.

Throughout the past year, the pulse of our business life has grown stronger day by day. Canadian industry, through all its multitudinous channels, has felt the urge of a resurgent activity. The process of production has been steadily accelerated to meet an intensified demand for Canadian commodities, and, throughout the Dominion, our manufacturing plants have experienced a sustained activity that often challenged their capacity. Our international trade, so vital to the economic welfare of the nation, has seen an almost spectacular increase in volume and in value, and the trade agreements which have been effected between Canada and other parts of the Empire, as well as with twenty-five other nations throughout the world, have opened up new avenues of distribution, with everwidening potentialities of business, for the products of Canadian farms, forests, and fisheries, mines and manufactories. And it is a significant fact—as well as a symbol of our progress—that employment in Canada has reached, to-day, a higher level than that of any month since the upward trend began.

Encouraged by the progress we have made, cheered by the brighter days we now encounter, sustained by the courage and the confidence which upheld us through the darker years, we can face, unafraid, the problems of the future. As a united people—yet each in his own place and endeavor—let us advance together to further heights of national achievement. Thus shall the great destiny of Canada be fulfilled, and all her people find happiness in the days to be.

"THE LAST ADVERTISEMENT WAS PRINTED YESTERD

What Would the World Be Like If It Were TRUE?

THE last advertisement was printed yesterday. You have to the out it out and put it away to show your grandchildren. With it, a way of living as you knew it, has passed forever.

Tonight you will want to see a movie. You pull up is one
saw it last week. At another—but no, you don't like So-andSo's acting. Let's go home. It's too much gas and time to
waste on a show. Next proof! helf the treatres will close. Por-

Tomorpw you will want some groceries. You will go to the nearest grocery store and buy some. Rib roast, perhaps, and lima beans. You won't hear until tomorrow night at the bridge table that the store just next door was having a "apecial" on rib roast and lima beans. Pretty soon your husband will wonder why the food bills are so high. The list advertisement weronized vesterday.

Next month is Aunt Jane's birthday. Well, if you thinkm going to spend half a day tramping from store to store looking for a gift that I used to find by turning a page—can't afford gifts anyway. We're spending money like water and living like noor folks. Old Car's wearing out. Can't afford a new one....
Low priced cars now \$1600...demand's fallen off...they've
had to put up prices to meet plant expenses. Most of the others
have closed down...don't know how the government will feet'
all the new unemployed.

Fellow in Winnipeg is inventing an air conditioner to sell or \$50. No one will hear of it. You will never see it. What is air conditioning anyway? The last advertisement was printed yesterday.

Advertising has brought us many things. Finer cars, better homes, silly facts and wonderful inventions that have made life easier—and longer. Advertising is no usmixed blessing.

But it has helped give Canada a standard of living unmatched in any other place and time. That standard of living should persist as long as people have wants to fill and money to spend and eyes to read with.

It will persist only so long as the presses keep rolling.

THE LITTLE TASKS

It lies in great and noble tasks Man's lofty aphere to prove; But, ah, it is the little tasks That always speak of love!

The kindly tasks, the tender deeds Which every heart recalls, These fill the spirit's vital needs, These build a home's four walls.

Sametimes the mighty tasks must be Through wealth or power wrought; The small tasks done by you and me Need only gracious thought.

And yet, these little tasks can send A gleam across the day, Aeross the years unto the end, No care can take away.

The proud, aspiring being asks On splendid-guests & move; But I am glad of little tasks Because they glow with love!

A Parade of Ceaseless Work

... a sign of triumphant industry marching ahead; truly a thought to make us ponder, but our constantly fulfilled expectations have helped us grow callous to that upon which our daily bread depends ! There is life behind it-the unending struggle for existence. An epic in which the whole range of human effort in loosed every day. Allied with it, we have the record of perseverance, high ideals, and a system of co-ordination which have taken generations of progress to perfect.

We have FIRST-the group who force the earth itself to give up its goods. SECONDLY-those who take this material and make, mould or pack it into the form which civilization demands. THIRDLY—the men who transport this merchandise to the widely-located distributing points . . .

AND FINALLY, the one basic medium which carries the news of all these many necessities into the home of the consumer-THE DAILY NEWSPAPER

PROFUNDITY IN THE PULPIT A preacher if degree,
Who loved to shout profundities
In sermons, loud and free.

His church was in the South and small, Inside, of ebon tone, And there his flock sang lustily Their hymns of praise and moss.

On Sunday he announced his text
As one profoundly deep:
"Twas "Adam, fust of men," he said
"Whose sin made all men weep.."

He told them II his thoughts were such They could not understand To stop him in the midst of them By raising up a hand;

And not \(\exists\) hesitate to ask

That he should make them plain

For he was there to teach the truth

And gladly would explain.

But man's creation was the theme Particularly then: How did God manufacture him, The father at all men?

"He moulded him from out de clay in human form divine. An stood him up against de fence Td dry"—what meant that sign?

A brawny arm was raised aloft, A voice rang out as ten: "Please stop, sub, stop, did you not say, Adam de fust of men?"

"Yes suh, I did, w'at would you know?
De Scripchuha hab no pretunce.

THE LAST ADVERTIS EMIENT WAS PRINTED YESTERD

What Would the World Be Like If It Were TRUE?

THE last advertisement was printed yesterday. You have cut it out and put it away to show your grandchildren.
With it, a way of living as you knew it, has passed forever.

Tonight you will want to see a movie. You pull up to one
—aw it last week. At another—but no, you don't like So-andSo's acting. Let's go home. It's too much gas and time to
waste on a show. Next most half the healths will close. Perstrengers.

Tomorrow you will want some groceries. You will go to the nearest grocery store and buy some. Rib roast, perhaps, and lima beans. You won't hear until tomorrow night at the bridge table that the store just next door was having a "special" on rib roast and lima beans. Pretty soon your husband will wonder why the food bills are you high. The let advertisement werprinted yesterday.

Next month is Aunt Jane's birthday. Well, if you think m going to spend half a day tramping from store to store looking for a gift that I used is find by turning a page—can't afford gifts anyway. We're spendire money like water and living like poor folks......

Old Car's wearing out. Can't afford a new one....
Low priced cars now \$1600...demand's fallen off..., they've
had to put up prices I0 meet plant expenses. Most of the others
have closed down....don't know how the government will feet
all the new unemployed.

Fellow in Winnipeg is inventing an air conditioner to sell or \$50. No one will hear of it. You will never, see it. What is air conditioning anyway? The last advertisement was printed yesterday.

Advertising has brought us many things. Finer cars, better homes, silly fads and wonderful inventions that have made life easier—and longer. Advertising is no unnixed bleasing. But it has helped give Canada a standard of living unmatched in any other place and time. That standard of living should persist as long as people have wants to IIII and money to spend and eyes torgrad with.

It will persist only so long as the presses keep rolling.

And peace and beauty matched your musing mood?
Have you, thus wandering, come upon a

spring That gushed, translucent, from a rocky

hill, Its waters falling with a little song And inexpressibly refreshing, chill?

There flowed, the spring and any man,

Athrat,
Had but to cup his palma beneath its tide
And draw them back, brimmed up with
sparking drops,
Had but to drink and then go, astisfied,
Have you in life's dim woodland wandered
long?

Y OU, so a business man, are inferested in profits. We, as a newspaper, are interested in helping you get them. We bullove that furnishing profit-building ideas to make our white space more valuable to you is one of the biggest jobs we can do.

No one knows better than we do that no two advertising problems are No one knows better than we so that no two advertising procisions are proclesly alike. But long experience has given us a very wide under-standing of the buying habits of people who read newspapers. And so every estiling idea The Ontario Intelligence offers you has been given the same test: Has it sold goods ill newspaper readers or hasn't it? This testing saves you money. It avoids wested offort, it was not to the control of the c It? This testing saves you money. lowers your year-round selling cost.

Famous Meyer Both Service Free to You!

Many of these selling ideas are twice-tested. They are the ideas furnished by the Meyer Both advertising service; ideas that have been developed after research on a nation-wide scale. They are selling goods right new for merchants all over the United States and Ganada. For one size but The Ontario Intelligencer advertisers may use the Meyer Both leated ideas in Belleville. No one size may utilize the illustrations, copy suggestions, layouts and merchandising plans which are your simply for the asking.

We want you ill feel free to call upon our staff for help whenever you have an unusual advertising problem. Satisfying you keeps us in bread and butter. And that's what we're in business for.

"Votes for women" was her alogan, And she helped to win the fight; Then as active politician Strove to make them ballot right.

Obdurate were they as voters; Many did not care, she said, Whether they were Grit or Tory, Or Communist, that M Red.

Gowns of beauty them attracted

Much more strongly than the vote,
And they often went in couples
To select a stylish cost.

Spent they hours with their hair-dressers And with rouge and other things While preparing for new conquests, Touching lightly their heart-strings.

How our zealous worker pouted, Hating all such vanity, And despairing as she labored Oft of their humanity!

While in June a new election Held attention for a space. Then our suffragette was busy And determined in the race.

Spoke she nightly from a platform
And in daytime canvassed hard
For a victory triumphant
And the people's warm regard.

While at breakfast with her husband One fine morning near the close Of the contest, she was glowing With enthusiastic pose.

As she said: "We'll sweep the country
Then the enemy will be meek!"
Cruel husband: "Won't you start, please,
With this room you swept Last week?"

FLOODS ADDED IDELIGHTS

THE HOME FORUM

I dreamed that I was young again
With arms about my Chlee,
Who told me I was wenderful
And that she loved me so.

I dreamed it often in the night
And sometimes in the day
But while awake it seemed so far,
So very far away.

And once there came another dream That seemed so grim and true; I dreamt I saw her in the arms Of lover, number two.

And she was telling him the same
As she had told to me:
How very wonderful was!
How happy they would be.

When wedding bells rang out for them Upon the votive air. The sun with glowing beams above, The earth, a garden fair!

Then in my wrath I sprang at her And cursed her in my pride. And swore that she should never be Another lover's bride.

I seized her long and silky hair
And flung her on my back
And raced with eager bound and hopAlong the wildwood track.

To where my cave and furry bed Awaited us in vain: My rival's club had found my head-I stumbled in my path,

And then awoke—to find, alas!

That dreams are idle stuff,
That promise blies I always wish—
Of such I've had enuff.

John W. Garvin.

Straight Line

WA STRAIGHT line is the shortest distance between two points." That holds for any two points-your pocketbook and your list of wants, for example. Follow the straight line, and you'll save yourself time, trouble and money.

Use the advertising columns of this newspaper as guide posts-In them, you find late news of what's M be had In the markets of the world. No need for you to meander about from store in store, comparing, pricing, judging, guessing values. The advertisements tell you the names of merchants and manufacturers you can trust. There you "and what's new, what's favored, what's offered confidently for your inspection. The advertisements in this paper take you into more stores than you could visit in a month.

There's no high-pressure salling, no rush, no uncertainty to this daily review of markets. Form the good habit of shopping by the straight-line method-you'll buy with assurance, with economy and with satisfaction.

Perhaps—

But

There are certain places - the ball park, the hockey game for instance; or street cars and buses where conversations become eloquent, sometimes forceful, but always semi-public.

These daily gatherings offer a vivid cross-section of the thoughts, ambitions, and ideals of an entire people; and it is only one more step to the questions, "Where are all these opinions created?" "What basic agency can be held responsible for the origination of so great a number of ideas?"

The answer lies in a great unconfined power in which the Canadian public places its faith; an institution in which ideas form an everchanging picture yet maintain a firm grip upon the imagination, the desires, and the buying thoughts of the entire world.

IN FIELDS WHERE I HAVE NEVER BEEN

In fields where I have never been I know the been weave out and in And crickets raise their piercing din.

I know just how the ground slopes down into the woodland, gold and brown, Where Autumn dons her gaudy gown,

And how, beyond the forest deep, The waters of a broad stream creep, Its green banks dotted white with sheep.

One I love well walked here, I know, With one she loved through April's glow, O, long ago, so long ago!

She told me of this homestead fair,

Advertisements are a guide to value

EXPERTS can roughly estimate the value of a product by looking at Il. More accurately, by handling and examining it... Its appearance, ill texture, the "feel" and the balance of it all mean something to their trained eyes and fingers.

But no one person can be an expert on steel, brass, wood, feather, foodstuffs, fabrics, and all of the materials that make up a list of pocsonal purchases. And even experts are fooled, sometimes, by concealed flaws and imperfections.

There is a surer index of value than the senses of eight and touchwww. knowledge of the maker's name and for what it stands. Here is the most certain method, except that of actual use, for judging the . value of any manufactured goods. Here is the only guarantee against careless workmanship, or the use of shoddy materials.

This is one important reason why it pays to read advertisements and to buy advertised goods. The product that is advertised is worthy of your confidence.

MEROHANDISE MUST BE GOOD OR IT COULD NOT BE CONSIS-TENTLY ADVERTISED. BUY ADVERTISED GOODS.

WHO WAS THE MAN IN THE IRON MASK

Who was the man in the iron mask? We must confess ourselves baffled. Historians have given us various theories relative to ancestry ... Eye witnesses have given us accounts of his stature, habits, mode of apparel, deportment and one hundred and one other details, but—one feature is really significant...NO ONE KNOWS WHO HE WAS.

F the analogy doesn't seem too far fetched, may we liken him to the manufacturer who, making a good product, decides it to be so superlative that it will eventually sell itself! He, like our friend in the mask, is doomed to bitter oblivion—characteristic of men who, through short-sightedness, fall to grasp the one essential fact that business opponents are mercless. They ask no quarter and give-none. When you are faced with competition of this kind, take the initiative, market your product FIRST and do it over-night... In the DAILY NEWSPAPER.

MY BUSINESS GIRL

Her lips were red, har hair in style
Her costume perfect in its wile;
And she was in an office suite,
Where money chinked, on Richmond
Street,

My wage was twenty-five a week, At humble tasks which made me meek; While she was earning thirty-four, With perquisites another score.

How could I woo that dashing girl With Venus touch in every curl! How hope to win her for my wife In such a world of work and strife!

She solved the problem one fine day:
"I love you, Tom, what do you say?"
For both of hs Pil earn the cash,
While you keep house and dishes wash."

With what a bound my pulse did leap; I took her in my arms to keep. What happiness! My heart's aglow! I've wife and car and radio. And all the fiction I can read While Honey's typing at top speed.

HERE IT IS - THE NEW VALUE DODGE - with the Airglide Ride

Priced right down among the lowest priced cars—yet it's Bigger, Faster, More Beautiful Than Ever.

TAKE a look at this new Dodge. There's style in every line, every angle. And that style is reflected is every detail, inside and out. The interior plainly speaks refinement and luxury.

Then . . . drive this new Dodge. Enjoy the newest development in driving case—"Synchronatic Control." All major driving operations . . steering, brakes, shift-ing, clatch . . . have been simplified, made effortless.

Then trythe "Airglide Ride." It's literally like gliding, Dodge has a steadiness and readability not even approached before, likeops on an even keel at all times. Hagrithe read. Skims smoothly over rough apots. Takes sharp curves safely, even at high speeds.

Advertisements are a guide to value

EXPERTS can roughly estimate the value of a product by looking at it. More accurately, by handling and examining it ... Its appearance, its texture, the "feet" and the balance of it all mean something to their trained eyes and fingers:

But no one person can be an expert on steel, brazz, wood, leather, foodstuffs, fabrics, and all of the materials that make up a list of personal purchases. And even experts are fooled, sometimes, by concealed flaws and imperfections.

There is a surer index of value than the senses of sight and touch . . knowledge of the maker's name and for what it stands. Here' is the most certain method, except that of actual use, for judging the value of any manufactured goods. Here is the only guarantee against careless workmanship, or the use of shoddy materials.

This is one important reason willy it pays to read advertisements and to buy advertised goods. The product that is advertised is worthy of your confidence.

MERCHANDISE MUST BE GOOD OR IT COULD NOT BE CONSIG TENTLY ADVERTISED. BUY ADVERTISED GOODS.

There is no instrument so well And fitly fashloned to convey Far music as this curving shell.

It brings the tones iff feathered spray, The shock and crash of breaking seas Against vast headlands, high and gray.

Like luliables its songs are ease To dreamland some half-sleeping child, So calm its wistful metodiés.

Strange music, subtly hushed and mild, ad yet with undertones that tell Of seas like mountains, waves gone wild.

Thrill to the Smoothest Ride You ever had!

EVEXTROOT vanis a car that glides along even over the roughest roads. . . A car that you can ride in all disy and feel fresh . . . a car in which you never feel engine vibration. The New Plymouth with the "Florting Ride" and Florting Power engine mountings gives these qualities to an incredible degree.

Chrysler Motors Engineers have approached in Plymouth what they accomplished in the Airflow care and what a hundred million miles of travel proved was right! They moved the engine and passengers FORWARD . . . now/you will sit credited between the sales where the easiest ride is bound as the Dat that's not the whole story.

A new spring material has been developed, making possible a front spring with the same rate of up-and-down movement as the back spring.

These two changes together give an incredibly smooth ride and allow you to sit in the car with muscles and nerves at rest.

and allow you to sit in the car with musices and nerves at rest. Plymouth still gives you an all-steel body, reinforced with steel ... more powerful hydraulic brakes with centritiues brake drums ... double-dep X-type frame ... sand the New Plymouth has a new-type, frombyand sway eliminator. The Plymouth engine is completely a new engine with starting speed and economy.

is completely a new engine with instruing speed and economy.
We are provide to effect his are Plymouth to our customers,
if has beauty, speed, economy and long life. If B still the best
conjenced car in the lowest price field. It gives you a ride that
you cannot appreciate until you actually get out on the read.
Come in today and ride in the new Plymouth. . . Compare all
the features and the delivered prices of all three lowest-priced
cars and we know that you will pick Plymouth.

Dr. Dafoe

took an American Journey

. . . and when he came to New York he won hard-boiled Broadway. He exchanged "gage" with Sally Rand and captivated Walter Winehell. He was the guest of the "Happy Warrior," the total of the city, THE NEWS OF THE WEEK!

But when he returned to his native Ontario his first request was for the North Hastings Review, published in his own home town of Madoc. He wanted to see what "the greatest newspaper in the world", as he calls it, had to say about him. The lavish laurels on the front pages of the hig city press were interesting, but the North Hastings Review was comething he know about—comething he had heard of before—comething he was sure of.

To each of the hundred thousand readers of key olty dallies, "the greatest newspaper in the world" le the one published In his own home oity. And why not? It tells him about Dr. Batee being received by President Received and the daily progress of his beloved quinter, about assessinations III the Balkans and the sputterings in the Sear. It also tells him about what is going on at home and about neighbors and friends and about people he has known for a long time. Il tells who held a successful tes, who is ill, who has had a "blessed event", who won the badminton tournsment, who is coming home for the holiday, who is selling

this and who is selling that. It is the ONLY paper that bringe him ALL THE NEWS HE WANTS!

Manufacturors, advertising and sales departments who get this idea fixed and work for it in "the greatest newspapers in the world" will be away out front when-some of the other fellows who are devoting all their time and attention to "only the larger centres" will be wondering why they get lost in the recovery shuffle. The cost need be no worry. Here are thirteen keys to thirteen responsive key markets-you can use all of them for less than two head office city dallies and for about a quarter the cost of one magazine.

"THE LAST ADVERTIS MENT WAS PRINTED YESTERD Y

What Would the World Be Like If It Were TRUE?

THE last advertisement was printed yesterday. You have cut it out and put it away to show your grandchildren. With it, a way of living as you know it, has passed forever.

Tonight you will want to see a movie. You pull up to one
—saw it last week. At another—but no, you don't like So-andSo'a string. Let's be home. It's too much gas and time to
waste on a show. Next mon't had to sheatters will close. Postendance.

Tomorrow you will want some groceries. You will go to be nearest grocery store and buy some. Rib roast, perhaps, and lima beans. You won't hear until tomorrow night at the bridge table that the store just next door was having a "special" on rib coast and lima beans. Pretty soon your husband will wonder why the food bills are so birth. The let advertisement were mindel vesterday.

Next month is Aunt Jane's birthday. Well, if you think on going to spend half a day tramping from store to store looking for a gift that I used to find by turning a page—can't afford gifta anyway. We're spending money like water and living like poor folks...... Old Car's wearing out. Can't afford a new one...

Low priced cars now \$1600....demand's fallen off....they've had to put up prices to meet plant expenses. Most of the others have closed down....don't know how the "overnment will fee all the new unemployed.

Fellow in Winnipeg is inventing an air conditioner to sell or \$50. No one will hear of it. You will never see it. What is air conditioning anyway? The last advertisement was printed yesterday.

Advertising has brought us many things. Finer cars, better homes, silly fads and wonderful inventions that have made life easier—and longer. Advertising in no unmixed blessing is the has helped give Canada a standard of living unmatching in

any other place and time. That standard of living abould persist as long as people have wants to fill and money to spend and eyes to read with.

Il will persist only so long as the presses keep rolling.

E: NEW FORD V-8 FOR 193

Distinctive New Lines and a New Kind of Riding Comfort

The comfort of Centre-Poiss Biding in accomplished by α fundamental change in our design—with new weight distribu-tion, new, seet position and new spring-ing. The improvement is especially

noticeable in the back seat. You ride forward toward the centre of the coraway from the rear axle and away from the humps. Recreect passengers now have the comfort of a "front-sent ride."

here the comiest of a Treat-sea mas-Scientific distribution of weight has been effected by completely redesigning the chemis. Engine, from and body are all so belomed that their weight is about equally distributed on all four wheels. This permits the use of longer, more flexible springs, both front and reor.

The springbase sil the New Ford V-8 is 123 inches, eleven inches longer thon the wheelbase. The front spring is the wheelbose. The trent spring is mounted forward all the front code, in-stend of directly over it. The rear spring is mounted nearly eight inches behind the rear code. This long springhous gives increased comfort without succificing some of handling.

Spring leaves are impered for quiet ms wall as greater flexibility.

The Ford policy of constant improve-ment is reflected also in the beautiful body lines of the New Ford V-8 for 1935. They are distinctively modern, yet not extreme. The whole oppourance mi the car is one of grace and substantial

The New Ford V-8 is longer and wider. with more leg room, more sent room and more luggage room. The front sents are 4 to 51/2 inches wider and sent three comfortably. The our is lower-easier to step in and out. Rear doors in sedans are wider. The new pillowed seats are unusually comfortable, with softer back springs and seed springs. The new in-terior finish, upholstery and appoint-ments are richer and more luxurious then emything you have ever seen in a

NEWLY DESIGNED BRAKES-NEW CLUTCH - EASIER STEERING

Other important 1935 features are the improved brukes and clutch, with solier action, requiring less loot pressure on the pedals, emier steering and new lower X-type frame. The front doors open forward. There are two new body types

FOREST IN WINTER

This is a day of lusty with the Andrew Many sulling leaves. And yet the sunaine it so bright No forest monarch rieves. To see his raiment stripped away, His robe of red and gold; Both bravely now the great trees greet. The wind, the biting cold.

It is as though, with summer fled,
With autumn past and gone.
The trees fling off their levely leaves
As sterner moods the vita.
No more of dailiance with the breaze,
No more of whispered song
While proudly they defy the gales
Through all the winter long.

A something strong and fine B here,
Trees barren, gray and gaunt,
Lift up their leafless limbs with strength
No angry storms can daunt.
—Aline Michaelis.

Basic Facts of Strong Position

88th Annual Report of Canada Life shows substantial progress in 1934

\$1,105,688 increase by the Canada Life in new paid for life insurance including revivals, makes a total of \$53,793,650 for 1934.

\$2.846.589 increase in new annity considerations was made in 1934, the total being \$12,257,620.

\$5,261,263 increase in income from all accreases reported, giving a total of \$50,859,188 for 1934.

\$15,519,672 increase brought the total usets of the Canada Life to \$242,362,564.

60% increase in policy loss collections in Canada and United States was shown over the previous year, the total collections amounting to \$2,250,000.

5,000 fewer persons applied for policy loans than in the previous year.

\$25,785,318 was paid out by the Canada Life during 1934 under its insurance and anomity contracts. Of this suin, \$17,784,047 was paid as Ifting policyholders.

313,18,27,56 was dishersed by the Canada' Life to its insurance and annoty contract holders in the five years of the depression, an amonat greater than half its present assets. During the same period the assets increased by over \$68,000,000.

J. Recovery from the greatest Economic Dislo-cation the World has ever known seems to be under way. We believe it, not only because all News Agencies. Captains of Industry and Finance, and Public men tell us so, but because it is being feit in the pockets of the people and seen in their faces.

We must get back to first principles. People must get themselves off the back of munici-palities. Municipalities must get themselves off the back of the Province or State, and the Provinces or States must get themselves off the back of the Federal Government.

Most people now fully believe that the world cannot get far on the road to recovery without International Trade. It is now realized that the International Trade. It is now related that in assignation is split has been over-developed in every country in the world. If that is correct, there must be readjustments of quotas, barriers of tariff and import restrictions which a world of harried nations have constructed in their or named nations have constructed in their frantic striving for self-sufficiency during the last four years. Although it seems to be unani-mously conceded that, before there can be substantial recovery the channels of trade between nations must be opened, every nation continues to ask, "who in going to do it first?"

Public opinion being what it ill conceived to be throughout the world, surely the statesmen of the various nations can, in the not too distant future, evolve a policy or policies which will increase international trade and stabilize

Confidence, more than any other thing, is what the world most lacks. Confidence of

Private Capital must be restored, and likewise at the same time must the confidence of Labour be established.

The report submitted by the Canada Life is based on the consideration that safety is the first essential factor to be considered by a life insurance company which has, a true and proper regard for the interests of its policyholders:

"MY OTHER place of advice, Copperfield," said Mr. Mlouwber, "you know Annual income twenty pounds, annual expenditure nineteen nineteen six, result happinees. Annual income twenty pounds, annual expenditure twenty pounds, aught and six, result misery. The blossom is blighted, the leaf is withered, the god of day goes down upon the dreary scene, and-and in short you are for ever floored.

Take it from Mr. Micewher or from any one of thousands who know it. for the truth, there's no friend like cash! And there's no way to be so certain of cests as to spend within your budget.

Begin today? Bay to yourself-so much will go for food, so much for rent, so much for fuel, so much for charity. Stick within your budget and you'll find it bountiful enough to leave you comething

One of the very best ways to budget as you go is to read the advertisements in this newspaper. Delly, as in a parade, the good values of the good stores march before you. Roest beef or chops for Sunday dinners, a special style 🖹 men's shirts, new drapes for the livingroom . . . the advertisements will help you choose them all, and OFTEN AT A SAVING!

beautiful budget

"MY OTHER piece of advice, Copperfield," said Mr. Micawber, "you know Annual Income twenty pounds, annual expenditure nineteen nineteen six, result happiness. Annual Income twenty pounds, annual expenditure twenty pounds, aught and six, result misory. The blossom is blighted, the leaf is withered, the god of day goes down upon the dreary scene, and-and in short you are for ever floored. As I am?"

Take II from Mr. Micawher or from any one of thousands who know it for the truth, there's no friend like cash! - And there's no way to be so certain of each as to spend within your budget.

Begin today! Bay to yourself-so much will go for food, so much for rent, so much for fuel, so much for charity. Stick within your budget and you'll find it bountiful enough to leave you something

One of the very best ways to budget as you go is to read the advertisements in this newspaper. Daily, as in a parade, the good values of the good stores march before you. Houst beef or chops for Sunday dinners, a special style in men's shirts, new drapes for the livingroom . . . the advertisements will help you choose them all, and OFTEN AT A BAYING!

"INSIDE KEEPS COLD "OUTSIDE

Cannot Read Mark Q. Now I don't want to offend you, Mr. Whiled, but can you read? A. A little, not much, not enough to understand the papers.
C. Lloyd Fisher, of the defence of the defence of the papers.

ACCEPTED By Science

FAVORED BY CANADIANS

Kellogg's ALL-BRAN is accepted by Canadian Physicians, has been Tested and approved by Consdian Distinues.

Hundreds of thousands of Canadians have discovered that this delicious cereal corrects constipation due to insufficient "bulk" in meals. Unless checked, this ailment may cause headaches, loss of appetite and energy. You feel below par fail to get the best out of each day.

Kellogg's ALL-BRAN supplies a generous quantity of mild "bulk" to aid regular habits. ALL-BRAN also furnishes vitamin B and iron. Unlike cathartics, this tempting cereal continues to be

effective witen used for months. Isn't it pleasanter to enjoy a ian Phys gentle, natural food instead of

weakening your system with patent medicines? Two tablespoonfuls daily are usually sufficient. Chronic cases, with each meal. Serve with milk or cream. If not relieved this

way, eee your doctor. Serve as a cereal or use in cooking.

Appetizing recipes on the red-andgreen package. Remember, Kellogg's ALL-BRAN is much more effective than part-bran products. Sold by all grocers. Made by Kellogg in London, Canada.

MOTORS ANNOUNCES

TWO NEW LINES OF

New on display is the NEW STANDARD CHEV-ROLET, the lowest-priced car in Canada! It dises you the raditional Chevrelet styling which has proved so popular. . . Bigger, room-ize Roles by Taher, with button wentitation. The new, improved little Flame value-in-head engine. . . & 23% increase in power, with all that means in extra "pick-up", extra "pull-

ing-ability" on the hills. . . . The lowest operat ing and upkeep their of any car... Bigger and more, powerful cable-controlled brekee... Really specious, finely appointed and lumnious m. . . . And a dosen other improvements designed to increase a reputation for depend-ability which is already famous.

CHEVROLET SIX

Soon to be displayed at our showrooms, for you to see and drive, is the NEW 1835 MASTER CHEVROLET. It's so much more beautiful than anything else you've seen up to now in the class that we call it The Style Car of the low ris class that we can't he says to the price field. It is beautifully streamlined, with the new Solid Steel "Turret Top" Body by Fisher, and styled entirely new in every detail.

The wheelbese iii longer and the body slung lower, to give wider sents and increased interior space. Fully-enclosed Knee-Action, refined and proved, results in even better riding qualities. And the perfected Blue Flame engine gives you finer, "snappler" performance with greater economy of oil and gasoline.

Featuring two distinct types of Fisher auty . . . Both powered with the same mproved Master Chevrolet engine Setting new standards of quality in the iwo lowest price ranger.

TODAY, General Motors announces two new lines of Chevrolets - two Sixes of highest quality in Canada's two lowest price ranges.

Years of unrivalled sales leadership are back of these nego Chevrolets. See them, ride in them and drive them - you'll agree they are bound to be the outstanding leaders of 1935.

They are the most beautiful and fuxurious cars that Chevrolet has ever built, and offer you two distinct types of striking Fisher Body streamlining. Even more important, they are the best-performing and most economical cars in all Chevrolet history. Both give you the new, perfected, Blue Flame six-cylinder engine.

Be sure to visit our showrooms as soon as you can. See and drive the new Standard Chevrolet . I. In investigate the bigger, style-leading Master models and you'll be convinced that it's wise to choose a Chevrolet for quality at low costs,

Yours faithfully

In this age of specialization, we are all one another's servants.

The Imperial Tobacco Company is proud to regarditself as the faithful servant of the people of Ganada: It serves them by taking a product of the soil, that has inherent in it properties capable of ministering to their peace, comfort and happiness, and then curing, processing, manufacturing, and packaging that product into forms convenient for their daily use.

Not content with that, it is doing its utmost, by widespread and intensive distribution, to make the comforts of tobacco available to people in every part of Canada, in forms and in qualities to suit everytaste, and at prices within every purse. In everythingit does for tobacco users it is earnestly striving to serve them uncommonly well, hoping thereby notmerely to win success, but to deserve it.

And that same determination to earn success by zeal in service has inspired the Company to look beyond the consumers of tobacco, to the distributors of tobacco products, to the workers in tobacco factories, to the growers of tobacco leaf, and beyond them again to Canada the Nation—always in quest of ways and means of widening and bettering its service.

The story of the more important steps taken to these ends will be told in succeeding mestages.

A bent, old woman made this rug; Within her quiet room She braided lights and shadows here And made the pattern bloom.

I love to fancy how she sat And stitched the long braids, so Content ill see beneath her hand The widening circles grow.

She left a portion of hemelf Within the rug's design, Its blending hues, its simple plan Are symbols true and fine.

And here Il lies before my gaze. The story she has told, Her faith and hope in these twined braids Of emerald and gold.

How do you CHOOSE?

EVERY time you make a purchase you make a choice. Buying a certain product may be so much a matter of habit that you don't realize you are choosing. But the fact remains that in accepting OHE brand . of goods you are always rejecting others; and the satisfaction you get from what you buy depends on the knowledge of quality and values that guides your selection.

. How do you know which bed-sheets, or which roofing material, or which radio will give you service you require? You can't personally test everything you buy and compare il with all the other products In its class. But there IS a way to find out which brand fits your

How do you CHOOSE?

EVERY time you make a purchase you make a choice. Buying a cartain product may be so much a matter at habit that you don't realize you are choosing. But the fact remains that in accepting ONE brand of goods you are always rejecting others; and the satisfaction you get from what you buy depends on the knowledge of quality and values that guides your selection.

How do you know which bed-sheets, or which roofing material, er which radio will give you service you require? You can't personally test everything you buy and compare it with all the other products In its class. . But there is a way to find out which brand fits your

The people who are most successful in their buying—who achieve the highest percentage of satisfaction from the things they own and use—are those who consistently road the advertising columns, and buy consistently advertised goods.

Ohoosing isn't just "guessing" when you follow the guidance of the advertisements.

YOU CAN DEPEND ON ADVERTISED GOODS. IT PAYS TO READ THE ADVERTISEMENTS.

THE OLD HOUSE

The old, did house is dearest still, For when I enter there I know loved feet have scarred the still and worn the winding stair.

Loved faces from its windows smiled, Loved hands its hearth-fire laid, And there'st dusk a sleepy child With boundless faith has prayed.

It is so restful and so kind.
Where love for long hus dwelt,
No doubt creeps in to vex my mind,
No fear is ever felt.

And still its dower if will Reep From sill to high roof tree, Peace will abide there, sweet and deep, For others yet to be. -Aline Michaelia
